

### Principles

Computers are a privilege

We need to keep ourselves safe online

What is a computer?	Why are electrics dangerous?	What should we do to keep ourselves and computers safe?
<p>A computer is a electronic device we use for many purposes such as:</p> <p>Communication Fun</p> <p>There are also other electronic devices like a tablet, phone or laptop.</p>	<p>A computer is run on electrics, which can give you a powerful shock.</p> <p>To protect ourselves we do not mess with wires or plugs and ask an adult for help if they need it.</p>	<p>We should always treat electronics with respect. Not lifting, dropping or damaging them.</p> <p>Never put water near to computers.</p>
How should we use our personal information?		What should we do if we are not sure about something we have seen?
<p>We don't give personal information out online. Address, full name and telephone numbers should never be shared.</p> <p>Otherwise, everyone could get that information and some people might not use it well.</p> <p>Tell an adult.</p>		<p>Leave the computer where it is and tell then show your adult.</p> <p>People and websites and be blocked so that the internet will be more safe for you.</p>
