

Our school was one of the lucky 30 from across Lancashire who took part in the Barney and Echo Internet Safety Roadshow at Blackburn Rovers FC on Thursday 23rd June.

We were joined by Lancashire Constabulary together with leading online safety experts from across the UK who led a number of interactive presentations.

The internet safety Roadshow will be at football clubs in towns and cities across the UK in 2016 with the aim of preparing primary school children for keeping safe online.

At the end of the Roadshow each school was presented with Barney and Echo educational resources called 'Caught in the Web' to enable us to continue our journey on internet safety and the effects of cyber bullying. Produced by the Police Community Clubs of Great Britain these resources are an invaluable addition to current curriculum activities.
